Introduction to the Judo Black Belt Association, Shingitai Jujitsu Association and International Freestyle Judo Alliance

Kodokan Judo is an ideal form of physical education, sport, self-defense and recreation. It is truly a “lifetime” sport or activity where anyone of any age can participate. The JBBA offers a conservative approach to earning rank in Kodokan Judo. Rank in judo must be earned, not given, and the standards set forth in this syllabus are strict and intended to assist both judo coaches and judo students in a sincere study of Kodokan Judo. One should consider earning a Black Belt as the same as earning a bachelor’s degree from a university, and in a Judo sense, advancing through the black belt ranks is equivalent to further advancing one’s education in a college or university. The color of one’s belt or accumulation of rank is of less importance than the skill and knowledge one possesses. Ability is more important than belt rank, but belt rank is a useful tool as a method of external motivation in learning and establishing one’s status in the judo community. This syllabus can also serve as an organized plan of learning the technical skills and general knowledge in Kodokan Judo.

Judo Black Belt Association (JBBA)

The JBBA was formed in 2004 and is an ancillary organization of the Shingitai Jujitsu Association (SJA) with the expressed purpose of providing fair, objective and inexpensive rank services based on strong educational standards. The Shingitai Jujitsu Association was formed in 1985 by John Saylor as an independent jujitsu and martial arts organization. In 2004, in response to the needs of SJA members who did both jujitsu and judo, the JBBA was formed by Steve Scott and endorsed by John Saylor as the ancillary judo body serving the SJA.

Kodokan Judo is first and foremost a method of physical education, but also a great sport and method of character development. Many individuals who are not affiliated with any of the major judo organizations or who are seeking an alternative to the major judo organizations; or others are involved in the sport of freestyle judo have found that the JBBA offers the functional, practical and “no frills” approach to the development and promulgation of (as in the words of SJA Director John Saylor) “judo the way it ought to be.” The JBBA makes no claim on exclusivity for judo rank or the recognition of JBBA issued rank by any of the major judo organizations in the United States. There are many good, legitimate organizations to choose from and the JBBA believes in the market place if ideas of services. The JBBA offers a comprehensive and education-based approach to the issuing of rank in judo and also offers fair and inexpensive rank promotion opportunities. The JBBA is one of several independent judo organizations affiliated with the IFJA.

“JUDO THE WAY IT OUGHT TO BE”

Judo is more than simply a sport. It is one of the most comprehensive forms of physical education ever devised. It is one of those subjects that is so complex that it takes a lifetime to study and appreciate. That being said, judo is also a rugged, dynamic, exciting and technically advanced sport. The introduction of freestyle judo in 2008 introduced some innovative rule changes in the conduct of judo as a sport. The concept of freestyle judo with its total appeal of Kodokan Judo. Rank in judo must be earned, not given, and the standards set forth in this syllabus are strict and intended to assist both judo coaches and judo students in a sincere study of Kodokan Judo.

Not everyone is a competitive athlete and both the JBBA and IFJA understands this by maintaining exacting standards for the issuing of belt rank in judo. Winning judo tournaments is one aspect of the broad appeal of Kodokan Judo.

The techniques presented in this syllabus embody a tradition of excellence in Kodokan Judo with the emphasis on functional application of the technical skills and ideal for those individuals and coaches who are involved in freestyle judo. It is hoped that coaches and serious students of judo use this syllabus as a resource for many years.
International Freestyle Judo Alliance (IFJA)

The IFJA is an independent alliance of judoka who advocate and promote the use of the Freestyle Judo contest rules. The IFJA believes that this set of contest rules best allows for the full and total application of Kodokan Judo, technically and tactically, as a competitive sport. This total approach to judo as a sport carries over into the actual learning, teaching, study, practice and application of Kodokan Judo in its fullest sense; as a method of physical education and character development.

The IFJA has established a technical syllabus and standards that, to our knowledge, are unique in the judo community. The IFJA believes that judo rank should be viewed in the same way that one approaches his or her education. The IFJA syllabus and standards are based on sound tenets of physical education. It is our belief that earning a Shodan in judo through our IFJA standards is analogous to earning a Bachelor’s Degree from a university. Subsequent judo ranks are similar to earning higher university degrees as well. With this being stated, the IFJA makes no claim that earning a Shodan equals earning a college degree, but this analogy is being used to illustrate that the IFJA approaches judo rank with the same seriousness that one approaches getting a higher education.

The IFJA also believes that judo belt rank is a serious matter. For too long, people in the judo community have used belt rank as a reward for loyalty or service to a particular organization or group. Additionally, the value of belt rank in judo has been inflated, much like a currency is inflated and this has dramatically decreased the technical quality of what is expected of being a black belt. And, to be blunt, it is well known that judo belt rank has at times been assigned to people who have the money to pay for it.

The IFJA also takes a serious view of issuing, assigning or granting belt rank from a legal perspective. Any organization or individual issuing or granting judo belt rank, coaching credentials or any other accreditation, certification, license or diploma has an ethical and legal responsibility to the public. As a result of this, the IFJA (as part of our standards) requires that the person being promoted to any Black Belt rank sign an agreement of expectations and behavior.

The IFJA endorses the JBBA and SJA as rank-granting organizations for judo. The JBBA and SJA have been supporters of freestyle judo, AAU Judo and the International Freestyle Judo Alliance since their formation.

AAU Judo

The Amateur Athletic Union (AAU) is the oldest, and largest, amateur sports organization in the United States. Judo is one of over 35 different sports that the AAU promotes. The AAU sanctions all freestyle judo tournaments and events in the United States. The AAU also provides the best club and individual practice and competition insurance policy in judo. AAU Judo does not issue judo belt rank. As stated previously, one of the purposes of the IFJA is to provide an umbrella organization for independent judo groups or individuals who issue their own judo rank. AAU Judo does not endorse any organization for the purposes of judo belt rank, but instead welcomes all judoka from all judo organizations, clubs or groups to participate in AAU Judo (and specifically, AAU Freestyle Judo).

The IFJA and JBBA Code of Conduct

The IFJA Code of Conduct is unique to the subject of issuing judo black belt judo rank. In all judo belt rank promotions, the applicant must agree to and sign our Code of Conduct as a condition of his/her promotion. The Code of Conduct outlines specific requirements and behavior on the part of the person applying for belt rank promotion. To the best of our knowledge, no other judo or martial arts organization uses this strict Code of Conduct. The Code of Conduct is presented later in this document as part of the application process for rank promotion.
JUDO BLACK BELT ASSOCIATION
SYLLABUS AND STANDARDS FOR JUDO RANK

STATEMENT OF PURPOSE
The purpose of this syllabus is to provide a fundamentally sound basis of passing knowledge, skill and ability in Kodokan Judo to anyone who wishes to learn. The color of one’s belt or accumulation of dan grades is of less importance than the skill one possesses. Ability is more important than belt rank, but belt rank is a useful tool as a method of external motivation in learning. This syllabus can also serve as an organized plan of teaching technical skills in judo.

TIME IN GRADE, SKIP PROMOTIONS AND RANK RECOGNITION

TIME IN GRADE: Time in grade refers to the active time a judoka spends at a specific rank level. Being away from judo does not count as time in grade. An example is if someone earns his Shodan, and then stops practicing or even being involved with the sport of judo, this person is not active and the time he is away from active participation in judo or judo activities does not count toward “time in grade” for his next promotion. If a person can’t practice judo for some reason due to a physical disability or other reasonable explanation, but stays involved as a referee, helper at tournaments, coach or active supporter, then he or she is considered active.

Time in grade is important for the development of the judoka. It takes time and a lot of hard work during that time to mature, gain confidence and develop the technical ability to progress on to the next rank level.

SKIP PROMOTIONS: A “skip promotion” takes place when a judoka passes over of skips one or more ranks. In other words, being promoted from Shodan to Sandan and skipping Nidan or being promoted from Nikyu to Shodan and skipping over Ikkkyu. Under most circumstances “skip promotions” are not approved. If an applicant can prove that he or she has been overlooked previously in promotions, or in extraordinary or unusual circumstance, “skip promotions” may be approved on an individual basis.

RECOGNITION OF EXISTING JUDO RANK: Immediate recognition or validation of applicant’s existing rank is not guaranteed. The applicant will be required to present a certificate or diploma from an existing organization indicating his or her Judo rank. The JBBA Promotion Board reserves the right to examine all applicants on an individual basis for rank recognition or validation and to require that the applicant meet the criteria and fulfill the standards for the rank that is being applied for. The applicant may be required to pass all or appropriate portions of the examination for the rank that is being applied for. The applicant must be prepared and willing to meet all requirements as specified in this syllabus for the rank applied for.

REQUIRED-ALL APPLICANTS MUST READ, UNDERSTAND, ACCEPT AND SIGN THE FOLLOWING CODE OF CONDUCT AND AGREEMENT AS PART OF THE ISSUING OF JUDO RANK BY THE JBBA OR SJA.

CODE OF CONDUCT TERMS, CONDITIONS, ACCEPTANCE AND AGREEMENT

Certain terms and conditions apply upon the acceptance, granting and issuing of judo belt rank by the Judo Black Belt Association (JBBA) and Shingitai Jujitsu Association (SJA). Further, upon acceptance of the rank granted (as specified on this membership/promotion application), the person applying for and/or accepting the judo belt rank issued by the JBBA (hereafter referred to as “applicant”), understands and agrees to the following terms and conditions.

1-The applicant understands and agrees that he or she is not compelled (or under any duress) to apply for or accept judo belt rank from the Judo Black Belt Association (hereafter referred to as JBBA). The student understands and agrees that he or she has the choice to affiliate with any judo or martial arts organization other than the JBBA and gain judo belt rank recognition by any or all of these other groups and, understanding these conditions, voluntarily and willingly enters into this agreement. The applicant has read, or has someone read to him/her these conditions, understands them and voluntarily and willingly agrees to them.

2-The JBBA shall grant or issue judo belt rank based on the factual, truthful and accurate information represented and provided by the applicant to the JBBA (or its representatives, employees or assigns). The applicant verifies and attests that all information he/she provides is factual, truthful and accurate. The JBBA reserves the right to rescind, revoke, repeal, cancel or withdraw recognition of belt rank issued previously by the JBBA if the applicant has falsified any information in applying for this judo belt rank.

3-The applicant agrees to comply with the rank standards or requirements and demonstrate all technical skills and provide all necessary information as required or requested by the JBBA judo belt rank examiner. The applicant voluntarily and willingly accepts the decision of the JBBA and the rank examiner as to whether the applicant successfully fulfills the judo belt rank standards or requirements when examined.

4-The JBBA is under no obligation to recognize any previously issued or existing belt rank, teaching credential, coaching credential, or any title from any organization, club or group in judo or any martial art.

5-The applicant understands that the judo belt rank granted or issued to him/her by the JBBA may not be recognized by any other judo organization or martial arts organization.

6-The rank issued by the JBBA to the applicant is issued on the basis on technical knowledge and skill in judo and is not a coaching credential or instructor’s license. The applicant understands that he/she is not to represent himself/herself as a coach, sensei or instructor based on this rank issued by the JBBA or SJA.
7-The applicant attests that he/she has no prior conviction of child molestation and is not a registered sex offender. The applicant understands and agrees that if he/she should ever be convicted of a felony involving child molestation, child pornography, rape or any violent felony, or is legally bound or required by law to register as a sex offender, the JBBA will no longer recognize or consider valid the judo belt rank that it has granted or issued previously.

8-As a condition and requirement in the granting and issuing of judo rank of Shodan or higher, the JBBA requires that the applicant actively support the sport and activity of judo (and specifically freestyle judo) by being a current member of the Amateur Athletic Union (AAU). The AAU and/or the AAU Judo Committee do not grant or issue judo rank and do not have an exclusive agreement with the JBBA (or any organization) for the granting and issuing of judo rank. The AAU and/or the AAU Judo Committee do not require membership in any organization other than the AAU for participation in AAU programs or activities, including judo. The AAU and/or the AAU Judo Committee do not endorse any judo organization as the sole or exclusive authority or arbiter of the granting or issuing of judo rank.

STATEMENT OF PURPOSE

The purpose of this syllabus is to provide a fundamentally sound basis of knowledge and technical skill in Kodokan Judo and to provide a standard of knowledge and expertise in technical skill for the advancement of rank issued by the Judo Black Belt Association (JBBA). One should consider earning the Shodan as the same as earning a bachelor’s degree from a university, and in a Judo sense, advancing through the black belt ranks is equivalent to further advancing one’s education in a college or university. Ability is more important than belt rank, but belt rank is a useful tool as a method of external motivation in learning. This syllabus can also serve as an organized plan of learning the technical skills and general knowledge in Kodokan Judo.

THE 67 THROWS OF KODOKAN JUDO

The standard syllabus of judo Nage Waza (Throwing Techniques) was the Gokyo no Waza and originally developed in 1895. In 1920, the Kodokan modified the Gokyo no Waza and it was comprised of forty (40) throwing techniques. In 1982, the Kodokan again revised the throwing syllabus to include eight (8) of the traditional or classical throwing techniques that were omitted in 1920. Additionally, seventeen (17) other throwing techniques, called the Shinmeisho no Waza, were recognized. One more change took place in 1997 when two (2) additional throwing techniques were added to the Shinmeisho no Waza, making a total of 67 standard throwing techniques recognized in Kodokan Judo. Of course, there are many more throwing techniques studied, practiced and used in judo, but these 67 Nage Waza comprise the core of the Kodokan Judo throwing syllabus. These 67 techniques are listed here for further reference when using this syllabus.

SHODAN (1st Grade Black Belt)

Earning a black belt in judo is similar to earning a bachelor’s degree from a university. This Shodan Syllabus is designed so that the person who earns the rank of Shodan has a solid foundation and can further his skills and abilities in judo. Shodan means “Initial Grade, Step or Level” and this syllabus reflects that. It normally takes anywhere from 4 (at a minimum) to 6 years of hard work to achieve the rank of Shodan. When earning the rank of Shodan, one is a “Yudansha” or “graded” judoka and is entitled to wear the black belt. Anyone who has not achieved the rank of Shodan is considered a “Mudansha” or “ungraded” judoka. As stated before, one should consider earning the Shodan as the same as earning a bachelor’s degree from a university. In a judo sense, advancing through the black belt ranks is equivalent to further advancing one’s education in a college or university.

TERMINOLOGY AND HISTORY
Goal-Every activity has its own terminology that helps everyone understand the concepts, theories and actual application of that particular activity. Judo is no different. Japanese terminology is useful in understanding the underlying and foundational concepts and theories of Kodokan Judo. Additionally, the Japanese terminology is used as the common language of judo all over the world. It is essential to understand as much of the Japanese terminology as possible to have a real comprehension of Kodokan Judo. Understanding the history of Kodokan Judo is essential to a more complete comprehension of judo as a method of physical education, sport, self-defense and recreational activity. One must know and appreciate the history of any activity or subject to have a good understanding of how and why that activity thrives. Kodokan Judo is no different.

APPLICANT MUST KNOW THE FOLLOWING TERMINOLOGY.
Important: Applicant must know both the English and Japanese names for all the techniques required for all ranks. This is especially true for the rank of Shodan. The following are not in alphabetical order.

KODOKAN JUDO-The correct name for what is commonly called judo. Kodokan means “School to learn the way” and Judo means “flexible, yielding, adaptable or gentle way or philosophy.” Judo is often called the “gentle way” but the word “ju” means more than simply “gentle” when referring to what is known as judo. Ju means adaptable, functional or having the ability to use your strength against him. Judo is far from gentle in its theory and application. It is functional and adaptable.

KUZUSHI-CONTROLLING THE OPPONENT’S BALANCE.
UNBALANCING THE OPPONENT.

TSUKURI-THE PREPARATORY ACTION OF THE THROWER OR FITTING INTO THE TECHNIQUE.

BASIC KODOKAN JUDO HISTORY AND PHILOSOPHY

Prof. Jigoro Kano founded Kodokan Judo in 1882 in Tokyo, Japan. Prof. Kano studied various forms of Jujutsu (primarily Tenshin Shinyo-ryu and Kito-ryu forms of jujutsu) starting in 1877. From these sources, he developed the theories and practical application of Kodokan Judo. Judo became an Olympic sport in 1964 for men and in 1988 for women and is practiced worldwide.

Kodokan Judo, as expressed by Prof. Jigoro Kano, is “The principle of the maximum-efficient use of mind and body. In studying judo, it is essential to train the body and to cultivate the mind through the methods of attack and defense. Thereby, perfecting oneself and contributing to the welfare of the world.” Prof. Kano summarized the above by using the slogans “Maximum efficiency with minimum effort” and “Mutual welfare and benefit.” These two slogans define the two primary goals of the theory and philosophy of Kodokan Judo.

There are many good resources to find out more information on the history of judo and everyone is encouraged to learn more about the history and philosophy of Kodokan Judo.

24
NIDAN (2nd Grade Black Belt)

The rank of Nidan is an extension of Shodan and the judoka is expected to continue his progress and refine the fundamental skills he has learned for Shodan. Time in grade is important as the judoka matures and continues in his study of judo. This is a time when the judoka also “works for him” and applies the basic skills so that they best suit his strength, size and any other factors. This is also a time when the judoka assists a senior coach or starts teaching on his own so that he has a better understanding of as many aspects of judo as possible.

The student is required to attend as many IFJA clinics, seminars, workshops and classes as possible to improve his skill level. The student is also required to go through coach education and become accredited or certified as an AAU or IFJA Judo Coach (this applies to everyone, including competitive judo athletes).

There are a few additional technical requirements for Nidan other than the fact that the judoka must progress in the quality of his technical skills and understanding of judo. If the judoka’s technical skill was a “7” on a scale of 1 to 10 (with 10 as the best), then he should improve it to as close to “10” as possible to be a Nidan. The judoka is expected to broaden his functional knowledge base as much as possible. It’s best to have the judoka work under the supervision of a senior coach so his skill level can be better assessed and suggestions on individual improvement can be made. The minimum age requirement for Nidan is 18 years of age. Time in grade is a minimum of 2 years and more often, it’s anywhere from 2 to 6 years. The student must also be current in his CPR certification and he is expected to continue to improve as a judo referee. When testing for this rank, the applicant will be required to undergo the same test as that for Shodan and meet all the requirements as listed for Shodan.

1-APPLICANT MUST BE A MINIMUM AGE OF 18 YEARS OLD.
2-APPLICANT MUST BE A CURRENT AAU MEMBER AND PASS THE AAU BACKGROUND CHECK.
3-APPLICANT MUST HAVE EXCELLENT ATTENDANCE IN ALL CLASSES, WORKOUTS, CLINICS AND SEMINARS IS REQUIRED.

ROKUDAN AND HIGHER

The ranks of Rokudan and above are analogous to earning a Doctorate from a university. While, in no way, does the JBBA imply, directly or indirectly, that titles such as “Professor,” “Doctor,” or other type of titles associated with that of a Ph.D. or that earning a Rokudan or higher rank in Judo directly equates to a Doctorate. However, within the context of Judo, the ranks of Rokudan or above denote the same level of knowledge, expertise, experience and credibility. A candidate for Rokudan, in addition to being active as a coach or instructor, must also demonstrate the ability to teach other coaches how to teach. In this regard, the JBBA’s syllabus and rank standards reflect this educational approach to these Kodansha (higher Dan grades).

At this level of achievement, the applicant or candidate for ranks of Rokudan and above should have an area of specialty, in addition to being able to demonstrate and teach a wide variety of technical skills. For example, candidates for Rokudan or higher could choose any of these areas (or any others of the candidate’s choosing): Coach Education, Kata, Historical Research, Medical Topics Relating to Judo, Judo for Special Populations, Technical Research, Kinesiology Relating to Judo, etc.

Additionally, applicants for the ranks of Rokudan and higher must have extensive experience on the national and/or international levels of judo in the capacity as an athlete, coach, mat official, or in some way served as a leader or promoter of judo, especially AAU and Freestyle Judo. Rank promotions will terminate at Godan unless the applicant demonstrates a proven and exceptional record of participation and achievement at the national and international levels. At this point in a judoka’s career, it is essential that the applicant for this level of rank possess excellent personal technical skill in judo and have (at the minimum) national credentials, serving in a leadership capacity in AAU Judo.

If an applicant or candidate applies for any rank of Rokudan or higher, he or she must successfully meet all previous rank requirements and criteria and successfully meet and fulfill the JBBA rank requirements and criteria for the rank he or she is applying for.
